

This document is intended to provide details on the conditions/restrictions that will cause the Persepctra Plus™ Performance Specification to become null and void.

1. Damage as a result of acts of God, falling objects, explosions, fire, external forces or other such similar or dissimilar circumstances beyond Baycoat's control;
2. Exposure to harmful fumes or foreign substances in the atmosphere;
3. Defects sourced from the substrate metal or in its fabrication, or embossing. Any corrosion or loss of adhesion as a result of the embossing process;
4. Significant differences in insulation below coated metal panel;
5. Damage due to moisture entrapment in coils and/or bundles during transit or storage or which has been stored or installed in such a way that allows standing water on the coating;
6. Failures as a result of mechanical damage incurred to the coating during the transportation, storage, processing, installation or service life of the product.
7. Failures or damage resulting from corrosion at cut/bare edges or failure of the metal substrate;
8. Product that has been stored/installed in such a way that allows contact with animals or animal waste;
9. Mishandling of any coated substrate, including abuse, alteration, modification, improper use, or storage;
10. Where materials / items such as snow guards and solar panels are attached /adhered to the product;
11. Installed within 1,500ft or less from a salt water environment;
12. Applied to non-standard building part end uses
13. Installed on buildings outside Canada, the Continental United States and Alaska;
